

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant:	Knoerle	Examiner:	Le
Serial No.:	09/383,145	Group Art Unit:	2642
Filed:	8/26/1999	Docket No.:	20009.0062US01/99010
Title:	METHOD AND SYSTEM FOR PRESERVING SERVICE NODE RESOURCES AND REDUCING CLIPPING EFFECT		

PETITION TO WITHDRAW HOLDING OF ABANDONMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This communication is responsive to an apparent Abandonment as indicated by a recent phone call to the Examiner. This petition is being filed under 37 C.F.R. 1.181 as a petition to withdraw a holding of abandonment based on failure to receive the most recent Office Action.

I hereby certify that the Office Action was not received and that the file jacket has been searched. A copy of the docket entries page for this matter is included herewith and shows that the most recent Office Action has not been docketed. Note that previous actions are not present on the docket because this matter was being handled by a prior firm and the present firm has only docketed actions that the present firm handles.

After discussion with the Examiner, it is suspected that correspondence for this matter is being addressed to a previous firm despite a power of attorney with change of correspondence address that was filed in August of 2004, a copy of which showing the OIPE stamp is submitted herewith. It is not known whether the Office Action was actually received by the previous firm.

A request to correct the power of attorney and correspondence address and to associate this matter with a customer number is also submitted herewith. Applicant

requests that the most recent Office Action be re-mailed to the correspondence address for customer number 45695.

No fees are believed due. However, please charge any additional fees or credit any overpayment to Deposit Account No. 50-3025.

Respectfully submitted,

Date: February 3, 2009

/Jeramie J. Keys/
